

Bugs: dmappend

Bugs

1. *If the outfile only has an image extension, then dmappend won't work. (21 Jul 2006)*

The tools fails with an error message:

```
(CIAO 3.4): Couldn't open output dataset image.fits
: Unknown error: 0
# 12237: (1) is: exit_upon_error->NULL
```

2. *Segmentation fault if file is write-protected. **NEW** (07 Mar 2008)*

dmappend segmentation faults when trying to append to a write-protected file
