

Bugs: dmhedit

Caveats

1. *The Data Model does not support writing to gzip'ed files.*

The Data Model does not support writing to gzip'ed files, *even if* the CIAO installation was configured with gzip support. General write support for gzip'ed files will not be added anytime in the near future, so users should gunzip their files first if it is necessary to modify them.

The Chandra X-Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
