## Bugs: mkrmf

### Bugs

#### 1. *mkrmf with unusual energy grid (12 Oct 2006)*

Using an unconventional energy grid in mkrmf, e.g. `axis1="energy=1:1.01:0.005"`, can cause the tool to fail with an error such as:

```
ATTEN: A number of 30 fef grid(s) are removed at its lower end (631, "eff_grids.cc").  
# mkrmf (CIAO3.4):  
ERROR: End of FeF Grids array (644, "eff_grids.cc").
```
