

How do I restore the default values of the parameters used to configure each *Sherpa* parameter–estimation method?

Use the *Sherpa* module `restore` function applicable to your command:

- `restore unc`
- `restore proj`
- `restore cov`
- `restore intunc`
- `restore intproj`
- `restore regunc`
- `restore regproj`

The Chandra X–Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
60 Garden Street, Cambridge, MA 02138 USA.
