Chandra X-ray Center

How do I restore the default values of the parameters used to configure each *Sherpa* parameter−estimation method?

Use the *Sherpa* module `restore` function applicable to your command:

- `restore_unc`
- `restore_proj`
- `restore_cov`
- `restore_intunc`
- `restore_intproj`
- `restore_regunc`
- `restore_regproj`

do I restore the default values of the parameters used to configure each Sherpa parameter–estimation method?
