November 2025

WELCOME!

Behavior at CXC-Sponsored Meetings

People attending CXC-sponsored meetings (including science symposia and peer reviews) are expected to treat others with courtesy and respect in an environment that is free from all forms of discrimination, harassment, and retaliation. We believe in equality of opportunity and treatment for all attendees, regardless of gender, gender identity or expression, race, color, national or ethnic origin, religion or religious belief, age, marital status, sexual orientation, disabilities, veteran status, seniority, or any other reason. Harassment, sexual or otherwise, is a form of misconduct that undermines the integrity of our meetings and our scientific exchanges. (From the CXC Code of Conduct)

Thank
you!

Purpose of the Users' Committee

- The CUC exists to ensure that the CXC benefits from a diverse, community-wide input on its large range of functions. It provides users with a formal mechanism to influence CXC policies and practices.
- The committee offers recommendations directly to the CXC and reports to the CXC Director.

Process

- Today, members of the CXC will present updates, address prior CUC recommendations, and discuss current projects. There will be opportunities for questions and open discussion throughout.
- You can view all the presentations and schedule details at: cxc.harvard.edu/cdo/cuc.
- In the afternoon, the CUC will hold an **Executive Session** for discussions among committee members and with the CXC Director.

CUC's Ultimate Goal

- The committee's primary outcome is to produce a report with recommended actions for the CXC Director. To assist with this, we are providing a [summary of today's presentations](#), which you can use to draft the report.

DINNER: 7pm at CHANGSHO Restaurant in Cambridge
