

AHELP for CIAO 3.4

get_slang_load_path

Context: [slangrtl](#)

Jump to: [Description](#) [See Also](#)

Synopsis

Get the value of the interpreter's load-path

Syntax

```
String_Type get_slang_load_path ()
```

Description

This function retrieves the value of the delimiter-separated search path used for loading files.

Some applications may not support the built-in load-path searching facility provided by the underlying library.
