I/O Bugs: syserrors

Bugs

1. ***Sherpa will not read in systematic errors unless the input file has a SYS_ERR keyword with a non−zero value.***

   If the file contains a SYS_ERR column but no SYS_ERR keyword, *Sherpa* will report "`WARNING: using systematic errors ...`", but will not read in the errors correctly.

   Workaround:

   add a non−zero value to this header keyword:

```
unix% dmhedit infile=my_file.fits filelist=none op=add key=SYS_ERR value=1.0
```

The Chandra X−Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
